

Hayle Academy

Dear Parents/Carers,

I am writing to inform you of the plans for your child's Mathematics lessons as we prepare them for their GCSEs next summer.

In order to best support all students in Mathematics, we are making some necessary changes to your child's Mathematics class. From next week, we will be merging groups 4 and 5 into a single class of 25 students that will be taught by Miss Parker. Mr Blease will teach group 2. Further to this, a small number of students will be moving from group 4 to group 3 with Miss Scott. These changes are being made to support continuity for all our students in their lessons, as a Maths specialist will teach them. It will also allow us to cater to students' areas of development in line with the planned curriculum to ensure that every student can achieve success.

We are providing a range of support to ensure that your child can feel supported and confident in their Mathematics lessons. The Mathematics teaching is supported through homework and directed revision through Hegarty Maths, GCSEPod and the use of Google Classroom. Students are encouraged to join their Google Classroom (code: rrolwv2) where they will find resources and knowledge organisers to support independent study.

If you do have any questions, please do not hesitate to email me on lizi.mckenzie@hayleacademy.net or leave a message with the school reception for a telephone call.

Yours sincerely
Miss Lizi McKenzie
Head of Mathematics and Computer Science
