

# Hayle Academy

## Year 7 Digital Transformation Evening Tuesday 6<sup>th</sup> February 2024 6-7pm

Dear Parent/Carer,

As you are aware, Hayle Academy, alongside all TPAT schools, are in the process of a digital transformation. This is named 'Advantage', as the aim is to give students an advantage; with improved teaching and learning and improved access of the curriculum.

Staff have had digital devices (iPads) since September and have undergone training on specific functions of the iPad that will improve teaching and learning. The next step is for our Year 7 students to receive an iPad on Wednesday 21<sup>st</sup> February.

We will continue to use exercise books and the iPads will be used to transform learning in certain aspects such as:

- Additional methods to check student understanding.
- Giving students access to lesson resources.
- Having the ability to record a teacher's explanation so the student can listen back to it if needed.
- Widening the methods in which teachers can give feedback.

We understand that this is a significant change to your child's learning. We would therefore like to warmly welcome you to an information evening on Tuesday 6<sup>th</sup> February from 6-7pm. Please may I ask that you reserve a seat(s) using the following link: <https://forms.gle/g55m8QiMEeduCeMJ7>

I have also attached a 'Frequently Asked Questions' document for your reference, which further explains the aims of Advantage and the Digital Transformation.

Warm regards,
